THE "GOLD ROOM" IN WALL STREET.—  
Our New York Correspondent in a private  
letter, makes the following allusion to  
gold speculators, under date of Decem-  
ber 2d, 1864:

"Business does not improve much,  
although a little more commotion is per-  
ceptible. Stocks are remarkably quiet.  
Gold of course is the speculative feature.  
Ye Gods! what a sight the Gold Room  
presents to the uninitiated visitor; men  
half crazy, acting as though they were  
trying to jump over each other's heads,  
bellowing at the top of their voices,  
some dancing with delight at a sudden  
rise, another faints and is carried out,  
probably one who has lost his all. This  
is no exaggerated account, it is what I  
have seen with my own eyes. For in-  
stance, in comes a new member of the  
beard, perhaps a retired grocer, with  
plenty of the "essential," eyes wide  
open, mouth ditto, hat on the back of his  
head, cries out, I will take \$50,000; sold  
cries out another at that moment. The  
next news received might send it "flying  
up" on the market one or two per cent.  
Grocer, elated with his success, goes in  
more desperately, and then, nine times  
out of ten he loses; and thus it goes on.—  
The old hands at the business can tell,  
almost to a day, of a new operator, how  
long it will be before he will be broke,  
after seeing him operate once. I don't  
care who the man is, if he gets into the  
gold room to operate on his individual  
account, he is destined to be a ruined  
man. The ones who make the money  
are such as August Belmont, Vaner-  
bilt, Cook, etc., and Government Agents  
who have the "inside" on the news,  
and the brokers who are satisfied  
with their commissions.

CALCULATING GREENBACK CURRENCY.—  
A Dutchman who keeps a country store  
in the neighborhood of Boston, had ten  
pieces of calico on his shelves when the  
prices began to advance. He sold out  
at the old rates, and said he—"When I  
went to de city to pay more, de money  
dat I got for my ten pieces of calico  
bought only eight. I took my eight  
pieces home, and marked a high  
profit on 'em, and sold dem fast, coming  
and when dey was all gone, I took my  
money and went to de city; and py dem  
der it pought only six pieces. Well,  
tinks I, dis is making money packwads.  
But I took my six pieces home, and put  
an awful big profit on dem; and now  
tinks I, I must make money like smoke.  
—But when I got dem six pieces sold, I  
took de money I got for 'em to de city  
again, and thought I would get about  
twelve pieces, put de calicoes had gone  
up again, and I got only four pieces.  
Well, I took dem home, put on a much  
pigger profit as I did before, and thought  
now I makes a heap of money. But  
when I got dem sold and went after  
more, de calicoes had gone up again, and  
I hope I may never die if I got more  
as two pieces for my money. So here I vas.  
I had ten pieces of calico when I started  
off to sell 'em, and here I am now mit  
only two pieces and no money. Why, I  
should had peen better off if I had shut  
up de store, keep my calicoes, and not  
sold dem at all."

CONVICTS.—M. S. Owen, convicted of  
an assault with intent to murder, and  
Ah Low, sentenced for burglary, were  
sent to San Quentin on Thursday morn-  
ing.—[Nevada Gazette.]

An Owen sent to State prison, and  
with a Chinaman, too! That's too  
much! Whom did he assault? How  
do you know what his intentions were?  
Are you sure he spells his name O-w-e-n?  
Did he publish a newspaper? Are there  
any others in the State prison of the  
same name? Is he an abolitionist?—  
How long has he gone up for? Is he  
smart enough to break out? These are  
questions of vital importance to us, and  
upon which we desire information.—[San  
Jose Mercury.]

We endeavor to answer your ques-  
tions, brother Owen. 1. J. McConnell.  
2. By the finding of the jury. 3. Yes.  
4. No, sir-ree! 5. Very likely. 6. Not  
much. 7. Three years. 8. If he isn't  
he is a d—uced fool. Any more ques-  
tions to propound, brother Owen?—  
[Gazette.]

CHINESE NEW YEAR'S falls this season  
on the 26th of January. The coming  
year will be designated on their calendars  
as the "Fourth Year of the reign of Tong  
Gee," their years being reckoned as the  
1st, 2d, 3d, etc., of the reign of the Em-  
peror who may occupy the throne at the  
time.

Edward Everett is dead.

IN FAVOR OF IT.—The San José Mer-  
cury publishes the following:  
We insist on an amendment to our  
State Constitution, whereby the word  
"white" shall be stricken therefrom, and  
upon the passage of such laws as will  
give to Americans of African descent,  
full, free, and equal privileges with every  
other citizen of the State.

For our part we are in favor of read-  
ing out of the Union party all radical  
agitators who can find nothing better  
to do than to clamor for negro suffrage.  
—[Bee.]

We differ with both. We have other  
duties now: The rebellion must be crush-  
ed. And as for reading out of the Un-  
ion party, men who are more radical on  
that one point than others, it can't be  
did. Keep the Union party intact and  
strong, and all will be well.

AN ITEM FOR SKATERS.—Skating is at  
hand, and here is a suggestion for rig-  
ging the skates: On each side of the  
skate attach a ring just below the ankle,  
and two others in such a position that  
the toe joint shall be between them;  
when in use these four should form a  
square of two inches. The rings may  
be half an inch diameter inside. Take a  
thong of leather nearly as wide  
as the rings, and lace it regularly  
through them, tying a knot on the in-  
step. It will be readily perceived that  
the strain in tightening the skate is dis-  
tributed among the six rings as soon as  
the foot begins to act, so that every part  
has an equal pressure upon it.

STATE AGRICULTURAL SOCIETY.—The An-  
nual meeting of the above Society will  
be held at Sacramento on the 26th inst.  
Over \$8,000 of the indebtedness of the  
Society has been cancelled during the  
present year. We acknowledge the re-  
ceipt of an invitation to attend from  
J. N. Hoag Esq. Sec. of the Society.

Six hundred Federal deserters are in  
the vicinity of Niagara Falls, Canada,  
most of whom have obtained bounties.  
They are in a bad condition.—[Ex-  
press.]

Serves them right.

**SCIENTIFIC MACHINE**  
This machine is the product of which it is intended  
to be used in the preparation of amalgam. It is not  
like the ordinary mill, which is very costly to run,  
and is very liable to get out of order, and CAN BE  
RUN BY ANY MAN OF ORDINARY INTELLIGENCE.  
IT CAN BE RUN AT LESS COST THAN ANY OTHER  
machine in use, and will produce anything like the  
quantity of amalgam that can be done with this.

Two of the Grinders and Amalgamators will work TWENTY  
TONS OF ROCK PER DAY with twelve horse power.

One of these machines is now set up at the Fulton  
Foundry, and Mr. Moore, the inventor, is in constant at-  
tendance, and will take pleasure in explaining the working  
of the machine to those who desire it.

Several of the machines are now in operation in various  
parts of the State, and are turning out work at twenty-five  
per cent less expense than by any other process.

As a further inducement to have Quincy Mills erected, will  
furnish a quantity of the best quality of amalgam, and will  
also supply the necessary machinery for the same.

## PEACE RUMORS.

The only item of interest during the past week by telegraph from the East, is the rumor of the appointment of a Commission on the part of the rebels, to proceed to Washington on a peace mission. Everybody desires peace, but peace itself is nothing; it is the terms of peace which divide the sentiment of the people. The people have endorsed the position taken by Lincoln in his letter to "All whom it may concern." And in the present temper of the loyal citizens, no more favorable terms can be granted; and their ultimatum may be briefly summed up in a few words:

1st, Absolute submission to Federal authority.

This is the initial point from which alone can peace be reached. Any other proposition would result in the acknowledgment of a Government founded on the rebellion. When that point is granted, it ceases to be, and cannot be treated as a rebellion, but as an independent nation. No proposition, therefore, based on any other idea, can be for a moment entertained. A mild form of cessation of hostilities was tried by the people at the November election, and it and its authors have been consigned to an ignominious and inglorious defeat. It did not reach the exalted stand of American National honor. It was a peace proposition in the interest of Jeff. Davis; and any other, come in what shape soever it may, can only be classed as a Trojan horse, which starts on any point short of absolute and unconditional submission.

2nd, Slavery must be extinguished. As the cause of the war, it cannot be saved to breed future disturbance. It should be abolished as a curse to the white race as well as the black, as the begetter of an aristocracy as odious as it is selfish and overbearing, as the reverse of Republican ideas, as anti-democratic in its character, and a wrong, politically, morally and socially.

We do not look for peace to come from Richmond; but as our armies loosed the despotism of the rebellion, we shall see its followers and dupes come back by local and State action. Georgia and North Carolina, we believe to-day, are ready, and only wait for the proper time to make their wishes known.

It is a matter of but small moment through what channel the goal is reached. Peace must come eventually in some shape, and we can only see two solutions to the problem,—our Government must conquer, or else the rebels will succeed. The one brings us domestic peace forever, the other a century of border warfare, which must necessarily result in one or the other becoming the dominant power.

As to the present rumor, however, of the appointment of a Peace Commission from the rebel authorities, we do not believe it. It is sensational; but if it should turn out true, our authorities will not receive them as a Commission, but as individuals who are to be watched as tricky, and who, under the garb of the Quaker, wear the stiletto.

Nothing will come of it, unless it should be an entering wedge to deprive Davis of his usurped power and authority. The time for peace has not yet come. Peace must be conquered, and we believe that that phase of the drama is about to be lifted.

PACIFIC MAGAZINE.—We have received the first number of Gazlay's Pacific Magazine, published in New York by D. M. Gazlay. It is devoted to the interest of the Pacific Coast, and is full of original reading matter, especially interesting to Californians. The price of subscription is \$5 00 in currency, or \$3 50 in gold. The magazine ought to be liberally supported by our citizens. White & Bauer are the San Francisco agents.

ENSMAILED.—The Marysville Express has been forced by circumstances over which it had no control, to lessen its size considerably, or in other words it grows small by degrees and beautifully less.

POLICE GAZETTE.—This chronicle of police and criminal news, has donned a new dress, and is as well and ably conducted as any paper of the kind published in the States.

JOHN CHURCH, one of the proprietors of the Virginian Union, and postmaster at Virginia City, has been elected State Printer of the new State of Nevada.—[Exchange.]

Mr. Church is a brother of J. C. Church, Esq., Deputy Surveyor of this county.

WATT'S NERVOUS ANTIDOTE cures Rheumatism.

SMELTING COPPER.—A writer in the Alta, in discussing the matter of copper ore, gives some figures worthy of attention: "Now suppose you can smelt copper ore in a foundry cupola, and you lose a large (say 20) per cent, on the ore by the process; or, from three tons of ore, you have one ton of metal, worth \$500. Deduct freight, mining, wharfage, and storage, \$80. Thus we have \$420 profit on three tons of ore, or \$140 per ton realized, just double the former figures for freighting ore in the usual way—even with 20 per cent loss. That copper ore can be smelted in a blast iron furnace we have a verification from several parts of this country. Even the sulphurets are so treated with success, it is said, in Copperopolis. A Frenchman there, with nothing, I believe, but his wits to aid him, and a close estimate of heat and draughts of air of his furnace, successfully smelts copper ore with charcoal at one process, but so little is the subject discussed or known amongst the common sense portion of the community, and so little is it enquired into, even with this fact before their eyes, no one, it is said, can accomplish the requisite smelting in the same furnace but the Frenchman himself."

"CHING FOO."—"Pacific," the New York correspondent of the Appeal gives the following account of the once famous and favorite correspondent of the Sac. Union. He says:

When the Southern States commenced their operations, you will remember "Ching Foo" wrote rather in their sympathy; but when the rebels fired on Fort Sumter, he was caught up in the popular whirlwind, and became quite patriotic. He raised a regiment (anybody could raise a regiment then) and led it down to the Potomac. One day Secretary Cameron made a radical abolition speech. Col. "Ching Foo" heard it, and wrote a letter cordially accepting the sentiments, and flattering the Secretary. "The Secretary of war is a noble looking man, but he never looked so noble as when" &c., &c. The letter was re-published in the Union over "Ching Foo's" actual signature, Spencer W. Cane. But the letter didn't quite answer its purpose, for shortly after, Col. Cane was mustered out of service for incompetency. He afterwards received an appointment on Gen. Sickles' Staff, with the rank of Captain. How long he remained there I do not know. I never heard of him afterwards until just before election, when he turned up a red-hot McClellan man, and a mover of resolutions at several Democratic meetings. Had it not been for this last, I should never have mentioned the unpleasant facts about him. He is a minister's son.

ASSISTANT ADJUTANT GENERAL DRUM.—If we are rightly informed, this man was responsible for the sending of Federal advertisements to the copperhead Marysville Express, and to the Oregon copperhead Intelligencer. We have no confidence in his loyalty—we don't know any Union man who has. He is believed to have destroyed Gen. Wright, and is now engaged in the destruction of Gen. McDowell. Drum is essentially unpopular with the Union men of California; and the sooner he is removed from that position, the better it will be for Gen. McDowell.—[Flag.]

Go into him, Mr. Flag. We think he is a copperhead, and we believe he voted for McClellan. Of course he had a right to support little Mac, but if he did, it goes far to show your opinion of the Adjutant General to be correct.—[Marysville Appeal.]

We concur.—[Grass Valley Union.] We hope the Flag will keep hammering away, until that "Drum" is "justed out" of his present position. He has no business there.

ENGLISH COMPLIMENTS.—A "most respectable" London weekly journal characterizes the Northerners in the United States as thieves, highwaymen, filibusters, border-ruffians, mercenaries, employed by a brutal government, where vulgar tyranny, lawlessness, cowardice, chicanery, have brought to an abyss of depravity in which there is not one redeeming trait.—[Ex.]

Keep on old Johnny Bull, your time will come one of these days. Uncle Sam is able to settle your account in full—and he will do it.

The uniformed and drilled militia of the State now numbers one hundred and forty-seven companies in all, of which twenty are cavalry and five artillery. These companies, says the Bee, will average about forty-five members each, making an aggregate military force, ready for service, if necessary, on twenty-four hours' notice, of six thousand six hundred and fifteen men.

The American Ministers at the courts of England and France each receive an annual salary of \$17,000—these two missions being the highest in grade.—[Exchange.]

A Cop., after reading the above, commenced to sing:

"How I long to be there."

REDUCED.—The amount of the State tax to be levied for 1865 amounts to \$1 15 on each \$100 worth of taxable property in the State. The Federal tax of 15 cents on each \$100 of taxable property which was levied and collected last year has been indefinitely suspended by an act of Congress.

LOUIS NAPOLEON is going into the steamship business with a perfect looseness.—[Ex.]

AGONY.—S. F. Seabury Esq., has received the appointment as agent in Plumas and Lassen counties for the sale of Greeley's History of the American Conflict. See advertisement in another column. A notice of the book will be given in our next.

LAD OUT.—We learn that one of the citizens of Taylorville, a short time since, took in an over dose of whiskey, which aroused his fighting propensities, and in the attempt to whip a woman, he was "knocked as cold as a wedge," by a blow from a chair, in the hands of the woman he assaulted.

A BAD BREAK.—A short time since a couple of the citizens of Summit, Sierra Valley, got into a dispute, and as the chances were that a fight would follow, one of the parties ran up stairs and procured his pistol; but in his hurry to get down, missed his footing, fell to the bottom of the stairs and broke his leg. The fight had not come off at last accounts.

ACCIDENT.—A few days since John Blood Esq., in attempting to tighten some part of the machinery in his quartz mill near Greenville, struck an iron key with a hammer, and the hammer bounded back and inflicted a severe injury to one of his eyes. His eye is so swollen at present that it is impossible to tell whether the pupil is so seriously injured as to permanently affect his eyesight.
